

IPEN Intervention on Rotterdam Convention Compliance
Given by Dr. Tadesse Amera, IPEN Co-Chair

8 May, 2019

Thank you, Mr. President.

IPEN appreciates the consultation made by the Friends of the President on compliance. As it is repeatedly presented, we are still discussing about a compliance mechanism after 15 years since the Convention entered into force. IPEN, therefore, supports the statement made by Switzerland, the African Region, EU, and many others and fully supports the adoption of Annex VII of this Convention.

Thank you, Mr. President.
